**Re: Rate Design for Electricity Distributors / revenue decoupling  
Board File No. EB-2012-0410**

Dear Ms. Walli,

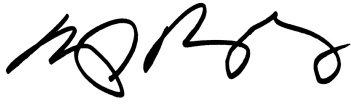

Attached please find submissions from APPRO regarding the review of the Draft Report of the Board on Rate Design for Electricity Distributors, Board File No. EB-2012-0410.

Please be aware that APPRO collaborated extensively with the Canadian Solar Industries Association (CanSIA) on this submission. We shared the cost of a consultant, Mr. Jason Chee-Aloy, and with his help we prepared a joint submission with CanSIA which forms the main part of the filing attached. In addition to the joint submission with CanSIA we also prepared a separate submission dealing with issues of concern that are specific to members of APPRO. As a result you will find attached two documents: The master or joint submission, and the APPRO-specific submission.

We look forward to working with the OEB on this and future matters, and I would be happy to discuss this submission in greater detail should you have any questions.
