**Re: Rate Design for Electricity Distributors
Board File No. EB-2012-0410**

Dear Ms. Walli,

The Canadian Solar Industries Association (CanSIA) would like to thank the Ontario Energy Board (OEB) for the opportunity to present our submission regarding the review of the Draft Report of the Board on Rate Design for Electricity Distributors, Board File No. EB-2012-0410.

Please be aware that CanSIA collaborated extensively with the Association of Power Producers of Ontario (APPrO) on this submission. We shared the cost of a consultant, Mr. Jason Chee-Aloy, and with his help we prepared a joint submission with APPO which forms the main part of our filing. In addition to the joint submission with APPrO, we also prepared a shorter submission dealing with issues of concern that are specific to members of CanSIA. As a result you will find attached two documents: The master or joint submission, and the CanSIA submission.

CanSIA looks forward to working with the OEB on this and future matters, and is happy to discuss this submission in greater detail should you have any questions.

Best Regards,

Wes Johnston
CanSIA, Vice President
