## **NOTICE OF APPLICATION AND HEARING**

### **To Amend the Generation Licence of Ontario Power Generation Inc.**

On January 16, 2006, Ontario Power Generation (“OPG”) filed an application with the Ontario Energy Board (the “Board”). The application was made under section 74 of the *Ontario Energy Board Act*, 1998, S.O. 1998, c. 15 (Sched.B) for an order of the Board to amend Part 6 of its electricity generation licence (EG-2003-0104).

Part 6 of OPG’s generation licence includes among other things, provisions that require OPG to maintain a “ring-fence” in relation to information pertaining to the Bruce nuclear facility. The ring-fence conditions were added to OPG’s generation licence following the Board’s Decision on the matter of whether the lease of the Bruce nuclear facility to Bruce Power L.P. represents the transfer of effective control over the output of that facility (the RP-2002-0142 Proceeding).

In its application, OPG seeks an amendment of certain licence conditions to reduce the scope of the ring-fence to reflect structural changes in the electricity sector and the public availability of market information.

Copies of the application and related documents are available for inspection at the Board’s office and at OPG’s office at the addresses indicated below.
