ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Schedule B);

AND IN THE MATTER OF an Application by Union Gas Limited, pursuant to section 36(1) of the *Ontario Energy Board Act, 1998*, for an order or orders necessary to accommodate a new interruptible natural gas liquefaction service at its Hagar Liquefied Natural Gas facility.

APPLICATION

1. Union Gas Limited ("Union") is a business corporation, incorporated under the laws of Ontario, with its head office in the Municipality of Chatham-Kent.
2. Union conducts an integrated natural gas utility business that combines the operations of selling, distributing, transmitting and storing gas within the meaning of the *Ontario Energy Board Act, 1998* (the "Act").
3. Union hereby applies to the Ontario Energy Board ("Board"), pursuant to section 36(1) of the *Ontario Energy Board Act, 1998* (the "Act") for an order or orders approving a new interruptible natural gas liquefaction service. The service will be provided at Union's Liquefied Natural Gas ("LNG") facility Hagar, Ontario using liquefaction capacity that is excess to utility requirements.
4. This service is in direct response to an increased interest in the use of natural gas, and LNG particularly, as an economical and environmentally preferable fuel for heavy duty vehicles.

5. The service will allow Union, with the new facilities that it will construct adjacent to Hagar, to dispense LNG to LNG wholesalers or customers primarily for vehicle transportation fuel. Union plans to offer this service beginning September 1, 2015.
6. The service will result in better utilization of Hagar. This better utilization will benefit Union's ratepayers over the Incentive Regulation Mechanism ("IRM") term (2014-2018) by contributing to regulated earnings subject to sharing. On rebasing, the revenue from these services will form part of regulated revenue for ratemaking.
7. Specifically, Union applies to the Board for:
 - (i) an order approving the proposed cost allocation methodology used to allocate 2013 Board-approved costs between liquefaction, storage and vapourization functions performed at Hagar;
 - (ii) an order approving the proposed cost allocation methodology that allocates 2013 Board-approved Union North distribution costs to the Rate L1 service;
 - (iii) an order approving a new Rate L1 rate schedule and a cost-based rate to accommodate an interruptible liquefaction service at Hagar;
 - (iv) an order approving a maximum interruptible liquefaction rate on short-term (i.e. one year or less) liquefaction service equal to approximately three times the cost-based interruptible liquefaction rate;
 - (v) an order approving modifications to the Union North Schedule "A" to accommodate Rate L1 gas supply charges expressed in dollars per gigajoules (\$/GJ);
 - (vi) for such interim order or orders approving interim rates or other charges and accounting orders as may from time to time appear appropriate or necessary; and
 - (vii) all necessary orders and directions concerning pre-hearing and hearing procedures for the determination of this application.
8. This application will be supported by written evidence. This evidence will be pre-filed and will be amended from time to time as required by the Board, or as circumstances may require.

9. The persons affected by this application are the customers resident or located in the Municipalities, Police Villages and First Nations served by Union, together with those to whom Union sells gas, or on whose behalf Union distributes, transmits or stores gas. It is impractical to set out in this application the names and addresses of such persons because they are too numerous.
