RE: Cedar Point Wind Energy Project OEB File Number EB-2014-0022

Dear Ms. Walli:

Please accept this correspondence as a request to submit evidence to the Board. Two copies have been sent by regular mail.

In our original request for intervenor status submitted on March 13, 2014, we indicated that we would be presenting data obtained from the following sources:

1. The Ontario Auditor-General's 2011 report, specifically the section dealing with renewable energy projects.
2. The Independent Electricity System Operator's data.
3. The Ontario Society of Professional Engineers studies.
4. The Minister of Energy's public comments.

The Procedural Orders 1, 2 and 3 did not call for submission of evidence, thus we did not submit formal evidence.

We ask the Board's indulgence in allowing us to submit this evidence at this time since the dates for the Argument-in-chief and the responses have not been determined.

We do not wish to unduly delay the proceedings, nor do we wish to unduly burden the applicant and other intervenors with excessive information. We would restrict our submission to no more than four documents that refer to the subject matter in our original request for status.

Thank you for your consideration in this matter.

Yours truly,
