Date: July 4, 2014 8:24:33 AM

I do thank you for keeping me informed re the decisions and orders made thus far by the Ontario Energy Board.
Please share my opinions with the Board.

How disheartening to feel that our government is not listening to the people of our community of West Lincoln and are instead going ahead to ease the infiltration of these huge monoliths which will be detrimental to our farming community and the health of it's inhabitants.

It is a disgrace to think that developments such as Industrial Wind Turbine Farms can flood our province when it has already been proven elsewhere in the world that such projects are not truly "Green", cause harm and injury to people living near them and are a complete waste of money. Wind turbines are not economically viable.

With the state our province is in.....can you really advise that you are passing a decision and order to allow this project to continue under your jurisdiction??? Or does the Ontario Energy Board truly have no say and you are merely pawns in a political disaster???

A conscience is a precious thing. It seems there is no one with enough conscience and integrity at the Ontario Energy Board to stop this disaster.

Thank you, Susan Smith.
