**Board Staff comments on NRG’s Draft Rate Order dated June 26, 2014**

Board staff has reviewed NRG’s Draft Rate Order as submitted on June 26, 2014 and is satisfied with the calculations showing the amount owing to IGPC as per Board Decisions dated February 27, 2014 and June 16, 2014. However, Board staff does not agree with NRG’s proposal of implementing the rate rider on or after October 1, 2014.

Board staff is of the view that the rate rider can be implemented effective September 1, 2014. The rate rider is applicable to a single rate class which has only one customer and NRG has sufficient time to make the required billing changes for the billing cycle to be implemented on or after September 1, 2014.

If the Board were to accept Board staff’s submission, the monthly rate rider would be \$41.786.54 ( $\$1,044,663.39 / 25$ ). Board staff submits that NRG in reply should submit a revised rate schedule that incorporates a rate rider effective September 1, 2014.

- All of which is respectfully submitted -
