**IN THE MATTER OF** the *Ontario Energy Board Act 1998*,  
S.O.1998, c.15, (Schedule B);

**AND IN THE MATTER OF** an Application by Canadian  
Renewable Energy Corporation, for an Order or Orders  
granting Leave to construct Transmission Facilities near  
Kingston.

### **PROCEDURAL ORDER NO. 1**

Canadian Renewable Energy Corporation (the “Applicant” or “CREC”) filed an application with the Ontario Energy Board, (the “Board”) dated February 2, 2007 under section 92 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B. The Applicant has applied for an order of the Board for leave to construct approximately 12.1 kilometres of single circuit 230 Kilovolt (“kV”) electricity transmission line, underground and submarine, and associated facilities. The transmission line would extend from a new transformer station (“TS”) located on Wolfe Island (“Wolfe Island TS”) to a new customer switching station “CSS”), adjacent to Hydro One Networks Inc. (“HONI”) Gardener TS. At the CSS, the proposed transmission line will connect with existing HONI 230 kV transmission lines X2H or X4H on the connections to Gardner TS.

The construction of the associated facilities, Wolfe Island TS and the new CSS, is part of the Application. The proposed transmission lines and associated facilities will connect the CREC Wolfe Island Wind Project to the HONI transmission system.

The Board assigned File No. EB-2007-0034 to this application and issued a Notice of Application dated February 23, 2007. CREC served and published the Notice as directed by the Board. The Notice requested that parties indicate their preference for an oral or written hearing. Two parties, Utilities Kingston and Paul Martin Construction Co. Ltd., indicated a preference for an oral hearing. The Board is considering these requests and will determine the type of hearing in a future procedural order.

The Board considers it necessary to make provision for the following procedural matters. Please be aware that further procedural orders may be issued from time to time.
