Dear Ms. Hockin:

**Re: Union Gas Limited ("Union")
Application for 2016 Dawn Parkway Expansion Project
Board File Number EB-2014-0261**

This letter acknowledges receipt on September 11, 2014 of your 2016 Dawn Parkway Expansion Project ("Project") application. The application requests leave to construct approximately 20 kilometres of NPS 48 pipeline extending from the Hamilton Valve Site to the Milton Valve Site and leave to construct a new compressor and associated facilities. The application also seeks approval of the recovery of the cost consequences of all facilities associated with the development of the Project from rate payers and approval of an accounting order to establish the Project deferral account.

In your covering letter, you indicate that Union anticipates filing complete evidence in support of the application by September 30, 2014.

Your application will not be processed prior to the filing of complete evidence in support of the application. Insufficient information exists at this time to allow potentially interested parties to make a determination as to whether they will participate in this proceeding. In addition, a determination cannot be made as to whether the *Environmental Guidelines for the Location, Construction and Operation of Hydrocarbon Pipelines and Facilities in Ontario* have been met. Lastly, Union has not justified why the application should be processed at this time without supporting evidence.

We will resume processing your application once the evidence in support of the application has been filed. If the evidence is not filed within 30 days of the date of this letter, the file for this application may be closed.

Please direct any questions relating to this application to Zora Crnojacki, Project Advisor at 416-440-8104 or Zora.Crnojacki@ontarioenergyboard.ca.

Yours truly,
