The purpose of this notice is to request and apply for Intervenor status in the matter of the sale of Haldimand County Hydro Inc. to Hydro One Networks Inc.

I am a long time resident of Haldimand County and have many concerns and unanswered questions about the circumstances and impacts, both long and short term of the proposed sale. I am also a current user of the Haldimand County Hydro Inc. services.

- This letter is to serve notice to request that I be granted intervenor status in the proceedings.
- This will be my initial participation in an Ontario Energy Board proceeding.
- I intend to participate in the proceedings in good faith and to the best of my abilities.
- If any costs out of the ordinary are occurred, I would seek reasonable compensation.

Issues to be addressed:

- The proposed sale of Haldimand County Hydro Inc. and the application of risk of harm test for the users of the service, and the ratepayers.
- The influences of the Green Energy Act and its authorities for the utilities involved and impacts on rates for the users of the service and ratepayers.
- The roles of the County of Haldimand, Haldimand County Hydro Inc., renewable energy approval holders, and Hydro One Inc. in contractual agreements, the procurement of these agreements and the proposed sale of the utility. Resulting impact on rates.
- The sale of Haldimand Hydro County Inc. and examination of the question; does it result in the best interests of the residents and ratepayers being served?
- Represent general interests as a user of Haldimand County Hydro Inc services and as a resident of Haldimand.

Nature of hearing requested:

I believe it is premature at this stage to determine whether a written or oral hearing would be the most appropriate method.

Please send me all the documentation served in this matter. Electronic filing of documents is acceptable with the following caution; as I am a rural resident, ***at times the internet connection is unavailable.***

Respectfully,

Linda J Rogers
