Dear Ms. Walli:

**Re: EB-2014-0194 – Affidavit Regarding Publication and Service of  
Notice of Application and Written Hearing**

Pursuant to the Board's Letter of Direction associated with the above referenced proceeding, dated July 28, 2014, please find attached affidavit evidence confirming appropriate publication and service of the Notice of Application and Written Hearing.

Please direct any comments or questions in this matter to the undersigned.

Yours truly,

Greg Towstego

Attach

cc: OPG Records

## ONTARIO ENERGY BOARD

**IN THE MATTER OF** the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Sched. B);

**AND IN THE MATTER OF** an Application by Ontario Power Generation for Approval for Leave to Construct Transmission Line from New Post Creek Generating Station to the Hydro One Transmission System;

### AFFIDAVIT OF GREG TOWSTEGO

**I, Greg Towstego, of the Town of Richmond Hill, in the Province of Ontario, Senior Manager, Ontario Power Generation Inc.,**

#### **MAKE OATH AND SAY:**

1. In my capacity as Senior Manager, Ontario Regulatory Affairs with Ontario Power Generation Inc. ("OPG"), I was responsible for arranging for publication of the Notice of Application and Written Hearing (the "Notice") in the matter of EB-2014-0194, pursuant to the Ontario Energy Board's Letter of Direction dated July 28, 2014.
2. I instructed the Corporate Relations and Communications department of OPG to arrange for the publication of the English version of the Notice, together with the map (true copies of which are attached as **Exhibit A**) and/or the French version of the Notice, together with the map (true copies of which are attached as **Exhibit B**), as appropriate, in the English and French language periodicals specified by the Ontario Energy Board in its Letter of Direction and as listed in **Exhibit C** of this affidavit.

3. I am advised by Ms. Kathryn Peck, Communication Services Manager, Corporate Relations and Communications department of OPG, that OPG engaged the firm of kbs+ to arrange for publication of the English version of the Notice and the French version of the Notice in the respective English language, French language, and English/French language publications. OPG forwarded copies of the English and French language versions of the Notice to kbs+ electronically.
  
4. I am further advised by Ms. Peck that she was advised by kbs+ that Kapuskasing L'Horizon no longer publishes in any form, whether paper or digital. However, Ms. Peck was informed that the Kapuskasing Weekender has a bonus arrangement with the Kapuskasing Northern Times, such that when OPG books a French insertion in the Kapuskasing Weekender, OPG can obtain a bonus French insertion in the Kapuskasing Northern Times. As the Letter of Direction required OPG to place a French publication of the Notice in the Kapuskasing Weekender, OPG was able to avail itself of the bonus deal and also place a French insertion of the Notice in the Kapuskasing Northern Times. Prior to finalization of OPG's media plan for the publications, I requested, via email, the approval of Ontario Energy Board staff of this alternate arrangement, whereby the bonus French insertion in the Kapuskasing Northern Times would essentially replace the foregone insertion in Kapuskasing L'Horizon and reach the same audience. By reply email, Ontario Energy Board staff indicated their approval of this arrangement (a copy of which email is attached as **Exhibit D**), and OPG directed kbs+ to book an insertion of the French version of the Notice in the Kapuskasing Northern Times.

5. Attached as **Exhibit E** is a copy of the insertion order, obtained from kbs+, for publication of the Notice in those periodicals listed in Exhibit D. To the best of my knowledge, the respective Notices were published on the dates, in the language and in the periodicals as set out in **Exhibit E**.
6. On Wednesday, August 6, 2014, I arranged for service of a copy of the English version and the French version of the Notice (true copies of which are attached as **Exhibit F**), together with a copy of the Application, to be made by courier or by registered mail (Express Post), on the persons/entities set out in the distribution list which is attached and marked as **Exhibit G**. Attached as **Exhibit H** is a true copy of the courier and Express Post receipts with respect to the service to the recipients.

As directed in paragraph 8 of the Letter of Direction, affected municipalities received service of a copy of the English version and the French version of the Notice, together with a copy of the Application and the pre-filed evidence. The affected municipalities are as follows, and are included in the distribution list and copy of courier receipts provided in Exhibits G and H, respectively, referred to above:

- (i.) The Corporation of the Town of Cochrane
- (ii.) The Corporation of the Town of Smooth Rock Falls
- (iii.) The Corporation of the Town of Kapuskasing

Per paragraph 8 of the Letter of Direction, these municipalities were also requested to make such documents available for convenient public perusal.

7. OPG's application materials and the Ontario Energy Board's Notice are available for public review at OPG's offices at 700 University Avenue in Toronto and on OPG's public website, [opg.com](http://opg.com).

8. This Affidavit is sworn in compliance with the Board's Letter of Direction, dated July 28, 2014, and for no other or improper purpose.

Sworn before me at the City of Toronto )  
on September 23, 2014 )

Commissioner, etc. )

# ONTARIO ENERGY BOARD NOTICE

## Ontario Power Generation Inc. has applied to the Ontario Energy Board to build a high-voltage transmission line.

– Learn More –

Ontario Power Generation Inc. is asking the Ontario Energy Board (OEB) for permission to construct approximately 7 kilometres of 115 kilovolt electricity transmission line and associated facilities on behalf of Ontario Power Generation Inc. and Coral Rapids Power Limited Partnership. The transmission line would connect a proposed 25 megawatt New Post Creek Hydroelectric Project to an existing Hydro One transmission line west of the Abitibi River.

Ontario Power Generation Inc. has indicated that the proposed transmission line will be located entirely on Crown land. Ontario Power Generation Inc. says it will work with the Ministry of Natural Resources to develop an easement agreement with the Crown.

A map of the proposed route for the transmission line is printed below.

Ontario Power Generation Inc.'s application to the OEB concerns construction of the proposed transmission line only. It does not concern the construction or operation of the New Post Creek Hydroelectric Project itself.

**The OEB is an independent and impartial public agency. It will hold a public hearing to consider Ontario Power Generation Inc.'s request.** During this hearing, the OEB will consider evidence and arguments by Ontario Power Generation Inc. and by individuals, municipalities and others whose interests would be affected.

**The OEB hearing will consider specific issues required by law.**

The *Ontario Energy Board Act* specifies the issues the OEB is to consider in making its decision. If you wish to participate in the OEB hearing, it is important for you to understand what these issues are.

As required by the *Ontario Energy Board Act*, the OEB will consider three issues:

- The interests of consumers with respect to prices and the reliability and quality of electricity service;
- In a manner consistent with the policies of the Government of Ontario, the promotion of the use of renewable energy sources; and
- The form of agreement that Ontario Power Generation Inc. offers to landowners affected by the route or location of the transmission line.

**The OEB hearing is not the only approval process required before a line is built.** For example, most transmission lines are subject to the Ministry of the Environment and Climate Change's environmental assessment process. The Board's review will only address the three factors outlined above and will not address other factors, such as environmental, health, aesthetics or property value impacts.

### BE INFORMED

You have the right to information regarding Ontario Power Generation Inc.'s application. You can read Ontario Power Generation's Inc.'s application on the OEB's website (see below under "LEARN MORE").

### HAVE YOUR SAY

If you would be affected by the proposed transmission line, you may want to take a more active role in the hearing. You can:

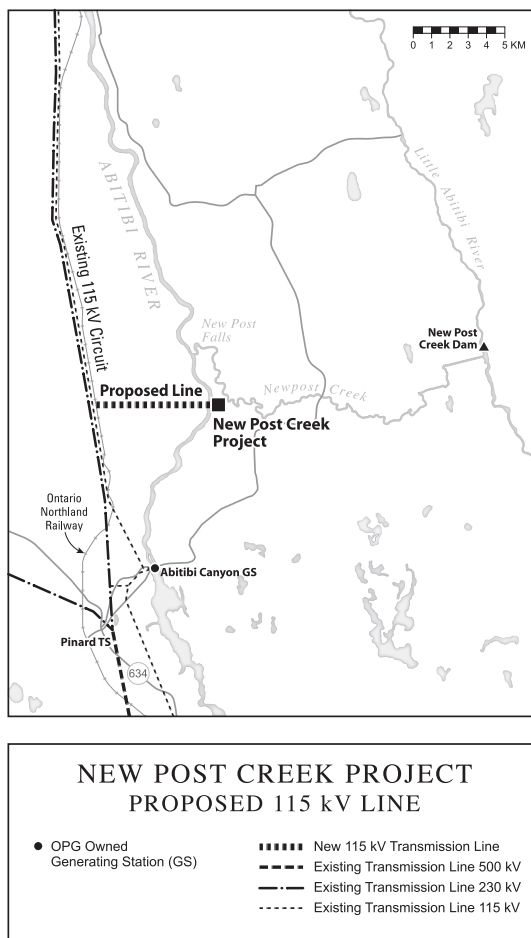

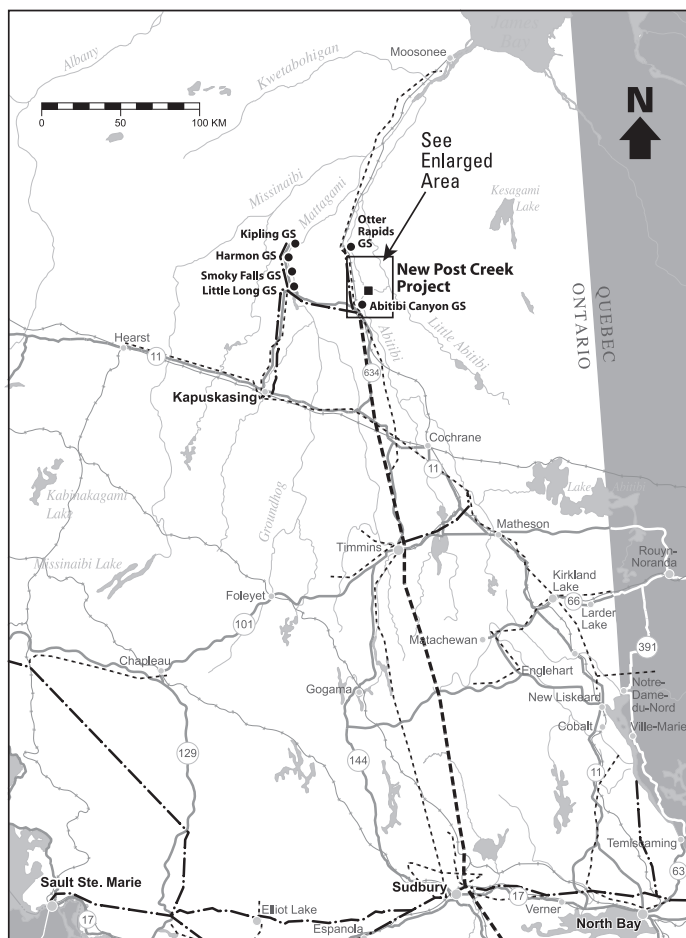

- Send the OEB a letter with your comments, which will be considered during the hearing; or
- Ask the OEB for permission to be an active participant in the hearing (an intervenor). Intervenors can provide evidence, argue their positions and submit relevant questions to be answered by Ontario Power Generation Inc. (interrogatories). To be an intervenor, a party must be affected by the transmission line in a way that relates directly to the issues the OEB will consider. If you wish to be an intervenor, the OEB must receive your request by September 2, 2014.

### LEARN MORE

To learn more about this hearing, find instructions on how to file letters or how to become an intervenor, or to read the documents concerning this hearing, please select the file number **EB-2014-0194** from the list on the OEB website [www.ontarioenergyboard.ca/noticelc](http://www.ontarioenergyboard.ca/noticelc). You can also phone Robert Caputo at 1-888-632-6273 extension 632 with any questions.

### ORAL AND WRITTEN HEARINGS

There are two types of OEB hearings – oral and written. Ontario Power Generation Inc. has applied for a written hearing. The OEB is considering this request. If you think an oral hearing is needed, you can write to the OEB to explain why by September 2, 2014.

### PRIVACY

If you write a letter with your comments, your name and the content of your letter will be put on the OEB's public record and the OEB website. However, your personal telephone number, address and email address will be removed. If you are a business, all your information will be public. If you apply to become an intervenor, all your information will be public.

This application was filed under sections 92 of the *Ontario Energy Board Act, 1998 S.O. 1998, c.15, Schedule B*.

A Commissioner, etc.

# AVIS DE LA COMMISSION DE L'ÉNERGIE DE L'ONTARIO

## Ontario Power Generation Inc. a déposé une requête auprès de la Commission de l'énergie de l'Ontario en vue de construire une ligne de transmission de haute tension.

– Soyez mieux renseigné –

Ontario Power Generation Inc. demande auprès de la Commission de l'énergie de l'Ontario (CEO) la permission de construire une ligne de transmission électrique de 115 kV d'environ 7 km de long et des installations connexes au compte d'Ontario Power Generation Inc. et de Coral Rapids Power Limited Partnership. La ligne de transmission relierait un projet hydroélectrique de 25 mégawatts à New Post Creek à une ligne de transmission existante d'Hydro One à l'ouest de la rivière Abitibi.

Ontario Power Generation Inc. souligne que la ligne de transmission proposée sera située en totalité sur les terres de la Couronne. Ontario Power Generation Inc. indique qu'elle collaborera avec le ministère des Ressources naturelles afin d'élaborer un accord de servitude avec la Couronne.

Une carte de la voie proposée de la ligne de transmission est imprimée ci-dessous.

La requête d'Ontario Power Generation Inc. déposée auprès de la CEO aborde seulement la construction de la ligne de transmission proposée. Elle n'aborde pas la construction ou l'exploitation du projet hydroélectrique New Post Creek.

**La CEO est un organisme public indépendant et impartial. Elle tiendra une audience publique pour examiner la requête d'Ontario Power Generation Inc.** Dans le cadre de cette audience, la CEO examinera les documents et les arguments d'Ontario Power Generation Inc. ainsi que ceux des individus, des municipalités et des autres parties dont les intérêts seraient concernés.

**Durant l'audience, la CEO tiendra compte des questions spécifiques requises par la loi.**

La Loi sur la Commission de l'énergie de l'Ontario précise les questions dont la CEO devra tenir compte avant de prendre sa décision. Si vous souhaitez participer à l'audience de la CEO, vous devez comprendre en quoi ces questions consistent.

Conformément à la Loi sur la Commission de l'énergie de l'Ontario, la CEO examinera trois questions :

- les intérêts des consommateurs en ce qui concerne les prix ainsi que la fiabilité et la qualité des services de distribution d'électricité;
- de manière conforme aux politiques du gouvernement de l'Ontario, la promotion de l'utilisation des sources d'énergie renouvelable; et
- le type d'accord que l'Ontario Power Generation Inc. offre aux propriétaires des terres

**L'audience de la CEO ne constitue pas le seul processus d'approbation nécessaire avant la construction d'une ligne.** Par exemple, la plupart des lignes de transmission sont assujetties au processus d'évaluation environnementale du ministère de l'Environnement et du Changement climatique. L'examen de la Commission ne portera que sur les trois facteurs susmentionnés et n'abordera pas d'autres facteurs touchant, entre autres, l'environnement, la santé, l'esthétique ou la valeur des propriétés.

### TENEZ-VOUS INFORMÉ

Vous avez droit à l'information en ce qui concerne la requête d'Ontario Power Generation Inc. Vous pouvez consulter la requête d'Ontario Power Generation Inc. sur le site Web de la CEO (voir « SOYEZ MIEUX RENSEIGNÉ » ci-dessous).

### DONNEZ VOTRE OPINION

Si la ligne de transmission proposée vous concerne, vous pourriez participer de façon plus active à l'audience. Vous pouvez :

- faire parvenir à la CEO une lettre de commentaires qui sera examinée durant l'audience;
- demander la permission de la CEO de participer activement à l'audience (à titre d'intervenant). Les intervenants peuvent fournir des preuves, défendre leurs positions et soumettre des questions pertinentes auxquelles devra répondre Ontario Power Generation Inc. (interrogatoires par écrit). Pour devenir intervenant, une partie doit être concernée par la ligne de transport d'une manière directement liée aux questions qu'examinera la CEO. Si vous souhaitez être un intervenant, la CEO doit recevoir votre demande au plus tard le 25 août 2014.

### SOYEZ MIEUX RENSEIGNÉ

Pour en savoir plus sur cette audience, sur les démarches à suivre pour déposer des lettres ou pour devenir un intervenant, ou encore pour consulter les documents concernant cette audience, veuillez sélectionner le numéro de dossier **EB-2014-0194** de la liste sur le site Web de la CEO [www.ontarioenergyboard.ca/noticelc](http://www.ontarioenergyboard.ca/noticelc). Si vous avez des questions, vous pouvez également communiquer avec Robert Caputo au 1-888-632-6273, poste 632.

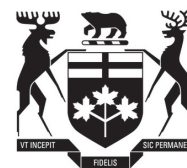

### AUDIENCES ORALES ET ÉCRITES

Il existe deux types d'audience à la CEO : orale et écrite. Ontario Power Generation Inc. a déposé une requête pour une audience écrite. La CEO prend cette requête en considération. Si vous croyez qu'une audience orale doit avoir lieu, vous pouvez écrire à la CEO pour expliquer pourquoi au plus tard le 25 août 2014.

### CONFIDENTIALITÉ

Si vous écrivez une lettre de commentaires, votre nom et le contenu de votre lettre seront versés au dossier public de la CEO et publiés sur son site Web. Toutefois, votre numéro de téléphone, votre adresse et votre adresse courriel seront supprimés. Si vous êtes une entreprise, tous vos renseignements seront accessibles au public. Si vous faites une requête de statut d'intervenant, tous vos renseignements seront du domaine public.

Cette requête a été déposée en vertu des articles 92 de la Loi sur la Commission de l'énergie de l'Ontario, L.O. 1998, chap. 15, annexe B.

**Importance:** High

Hello Greg,

I've checked with the case team and your approach is fine. Please ensure that the affidavit states as to why the alternative was needed and pursued. That avoids the Board having to re-issue the Letter of Direction, which was specific as to newspapers for publication.

Thanks,  
John

**Subject:** Question Regarding Publication of Notice - New Post Creek Tx Line Leave to Construct Application- EB-2014-0194

John,

I received an auto-reply to the below email indicating that Batul is away today (case manager Robert Caputo is also away).

OPG's Public Relations group is currently finalizing their media plan with our media buyer for publication of the Notice for the New Post Creek s.92 leave to construct application, and have learned that one of the publications is no longer publishing (per my note below). Any guidance you can provide regarding my question would be appreciated so that the media plan can be finalized.

I have included a copy of the Board's Letter of Direction for reference.

Thank-you,

**Greg Towstego**, Regulatory Affairs, Ontario Power Generation, 416-592-6846, [greg.towstego@opg.com](mailto:greg.towstego@opg.com)

**Sent:** Friday, August 01, 2014 10:00 AM  
**To:** 'Batul Rahimtoola'  
**Cc:** 'Robert Caputo'  
**Subject:** RE: Word Copies of the Notice - EB-2014-0194

Batul,

Thank-you for the Word versions.

On another matter, and in Robert Caputo's absence, our Public Relations group has been informed by their media buyer that Kapuskasing L'Horizon newspaper, where we were to place a French Notice, is no longer publishing. However, the Kapuskasing Weekender, where we are also placing a French Notice, has a bonus deal with the Kapuskasing Northern Times. When we book a French ad in the Weekender, we get a bonus French insertion in the Kapuskasing Northern Times (we are also placing an English Notice in the Northern Times per the Letter of Direction).

Therefore, the bonus French insertion in the Kapuskasing Northern Times will essentially replace the foregone L'Horizon insertion and will reach the same audience.

Please let me know if the OEB has any concern with this replacement, as it will need to be noted in the affidavit of service that we will later submit to the Board per item no. 6 in the Letter of Direction.

Thank-you,

**Greg**

Greg Towstego

Sworn before me at the City of Toronto  
in the Province of Ontario

this 23<sup>rd</sup> day of September, 2014

A handwritten signature in blue ink, appearing to be 'C. L. S.', written over a horizontal line.

A Commissioner, etc.

## ONTARIO ENERGY BOARD NOTICE

**Ontario Power Generation Inc. has applied to the Ontario Energy Board to build a high-voltage transmission line.**

**Learn More**

**Ontario Power Generation Inc.** is asking the Ontario Energy Board (OEB) for permission to construct approximately 7 kilometers of 115 kilovolt electricity transmission line and associated facilities on behalf of Ontario Power Generation Inc. and Coral Rapids Power Limited Partnership. The transmission line would connect a proposed 25 megawatt New Post Creek Hydroelectric Project to an existing Hydro One transmission line west of the Abitibi River.

Ontario Power Generation Inc. has indicated that the proposed transmission line will be located entirely on Crown land. Ontario Power Generation Inc. says it will work with the Ministry of Natural Resources to develop an easement agreement with the Crown.

A map of the proposed route for the transmission line is printed below.

Ontario Power Generation Inc.'s application to the OEB concerns construction of the proposed transmission line only. It does not concern the construction or operation of the New Post Creek Hydroelectric Project itself.

**The OEB is an independent and impartial public agency. It will hold a public hearing to consider Ontario Power Generation Inc.'s request.** During this hearing, the OEB will consider evidence and arguments by Ontario Power Generation Inc. and by individuals, municipalities and others whose interests would be affected.

**The OEB hearing will consider specific issues required by law.**

The *Ontario Energy Board Act* specifies the issues the OEB is to consider in making its decision. If you wish to participate in the OEB hearing, it is important for you to understand what these issues are.

As required by the *Ontario Energy Board Act* the OEB will consider three issues:

- The interests of consumers with respect to prices and the reliability and quality of electricity service;
- In a manner consistent with the policies of the Government of Ontario, the promotion of the use of renewable energy sources; and
- The form of agreement that Ontario Power Generation Inc. offers to landowners affected by the route or location of the transmission line.

**The OEB hearing is not the only approval process required before a line is built.**

For example, most transmission lines are subject to the Ministry of the Environment and Climate Change's environmental assessment process. The Board's review will only address the three factors outlined above and will not address other factors, such as environmental, health, aesthetics or property value impacts.

### **BE INFORMED**

You have the right to information regarding Ontario Power Generation Inc.'s application. You can read Ontario Power Generation's application on the OEB's website (See below under "Learn More").

## HAVE YOUR SAY

If you would be affected by the proposed transmission line, you may want to take a more active role in the hearing. You can:

- Send the OEB a letter with your comments, which will be considered during the hearing; or
- Ask the OEB for permission to be an active participant in the hearing (an intervenor). Intervenors can provide evidence, argue their positions and submit relevant questions to be answered by Ontario Power Generation Inc. (interrogatories). To be an intervenor, a party must be affected by the transmission line in a way that relates directly to the issues the OEB will consider. If you wish to be an intervenor, the OEB must receive your request by **August 25, 2014**.

## LEARN MORE

To learn more about this hearing, find instructions on how to file letters or how to become an intervenor, or to read the documents concerning this hearing please select the file number **EB-2014-0194** from the list on the OEB website

[www.ontarioenergyboard.ca/noticeltc](http://www.ontarioenergyboard.ca/noticeltc) . You can also phone Robert Caputo at 1-888-632-6273 extension 632 with any questions.

## Oral and Written Hearings

There are two types of OEB hearings - oral and written. Ontario Power Generation Inc. has applied for a written hearing. The OEB is considering this request. If you think an oral hearing is needed, you can write to the OEB to explain why by **August 25, 2014**.

## Privacy

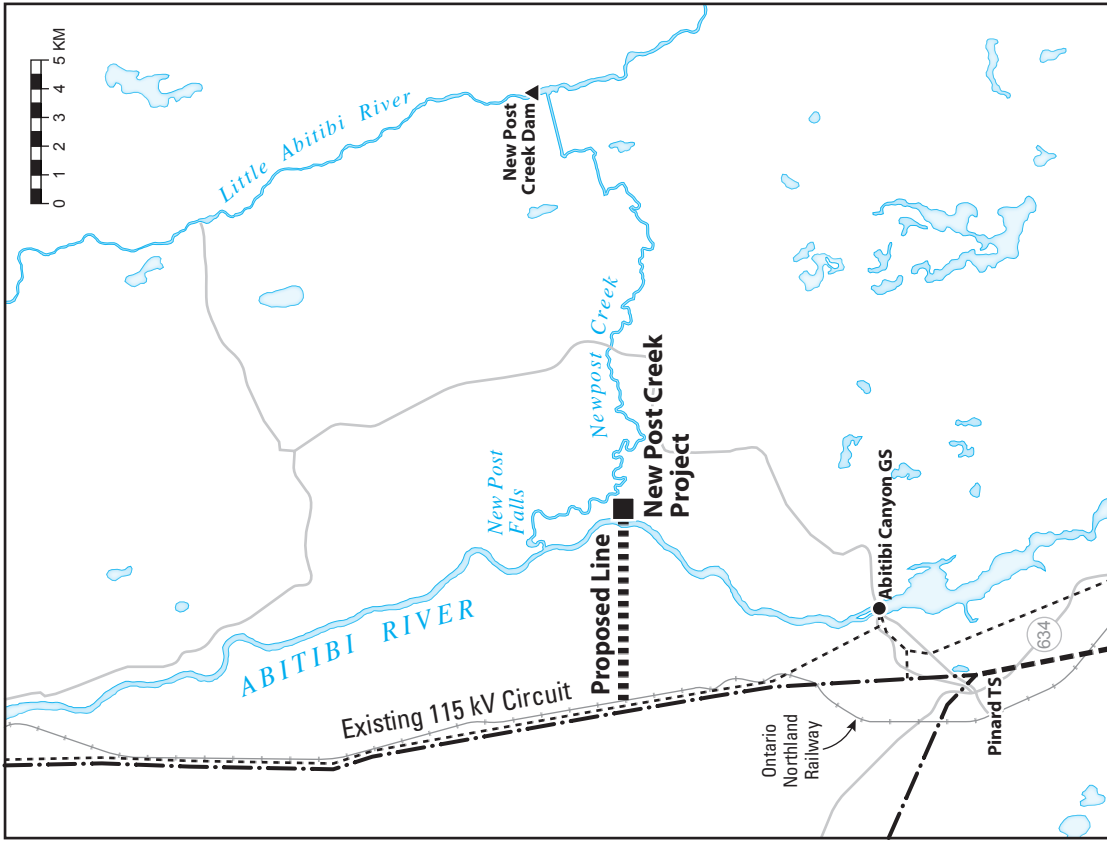

If you write a letter with your comments, your name and the content of your letter will be put on the OEB's public record and the OEB website. However, your personal telephone number, address and email address will be removed. If you are a business, all your information will be public. If you apply to become an intervenor, all your information will be public.

This application was filed under sections 92 of the *Ontario Energy Board Act, 1998 S.O. 1998, c.15, Schedule B*.

### NEW POST CREEK PROJECT PROPOSED 115 kV LINE

- OPG Owned Generating Station (GS)
- New 115 kV Transmission Line
- Existing Transmission Line 500 kV
- Existing Transmission Line 230 kV
- Existing Transmission Line 115 kV

## AVIS DE LA COMMISSION DE L'ÉNERGIE DE L'ONTARIO

**Ontario Power Generation Inc. a déposé une requête auprès de la Commission de l'énergie de l'Ontario en vue de construire une ligne de transmission de haute tension.**

### **Soyez mieux renseigné**

**Ontario Power Generation Inc.** demande auprès de la Commission de l'énergie de l'Ontario (CEO) la permission de construire une ligne de transmission électrique de 115 kV d'environ 7 km de long et des installations connexes au compte d'Ontario Power Generation Inc et de Coral Rapids Power Limited Partnership. La ligne de transmission relierait un projet hydroélectrique de 25 mégawatts à New Post Creek à une ligne de transmission existante d'Hydro One à l'ouest de la rivière Abitibi.

Ontario Power Generation Inc. souligne que la ligne de transmission proposée sera située en totalité sur les terres de la Couronne. Ontario Power Generation Inc. indique qu'elle collaborera avec le ministère des Ressources naturelles afin d'élaborer un accord de servitude avec la Couronne.

Une carte de la voie proposée de la ligne de transmission est imprimée ci-dessous.

La requête d'Ontario Power Generation Inc. déposée auprès de la CEO aborde seulement la construction de la ligne de transmission proposée. Elle n'aborde pas la construction ou l'exploitation du projet hydroélectrique New Post Creek.

**La CEO est un organisme public indépendant et impartial. Elle tiendra une audience publique pour examiner la requête d'Ontario Power Generation Inc.**

Dans le cadre de cette audience, la CEO examinera les documents et les arguments d'Ontario Power Generation Inc. ainsi que ceux des individus, des municipalités et des autres parties dont les intérêts seraient concernés.

**Durant l'audience, la CEO tiendra compte des questions spécifiques requises par la loi.**

La *Loi sur la Commission de l'énergie de l'Ontario* précise les questions dont la CEO devra tenir compte avant de prendre sa décision. Si vous souhaitez participer à l'audience de la CEO, vous devez comprendre en quoi ces questions consistent.

Conformément à la *Loi sur la Commission de l'énergie de l'Ontario*, la CEO examinera trois questions :

- les intérêts des consommateurs en ce qui concerne les prix ainsi que la fiabilité et la qualité des services de distribution d'électricité;
- de manière conforme aux politiques du gouvernement de l'Ontario, la promotion de l'utilisation des sources d'énergie renouvelable; et
- le type d'accord que l'Ontario Power Generation Inc. offre aux propriétaires des terres concernés par le routage ou l'emplacement de la ligne de transport.

**L'audience de la CEO ne constitue pas le seul processus d'approbation nécessaire avant la construction d'une ligne.** Par exemple, la plupart des lignes de transmission sont assujetties au processus d'évaluation environnementale du ministère de l'Environnement et du Changement climatique. L'examen de la Commission ne portera que sur les trois facteurs susmentionnés et n'abordera pas d'autres facteurs touchant, entre autres, l'environnement, la santé, l'esthétique ou la valeur des propriétés.

### **TENEZ-VOUS INFORMÉ**

Vous avez droit à l'information en ce qui concerne la requête d'Ontario Power Generation Inc.. Vous pouvez consulter la requête d'Ontario Power Generation sur le site Web de la CEO (voir « Soyez mieux renseigné » ci-dessous).

## **DONNEZ VOTRE OPINION**

Si la ligne de transmission proposée vous concerne, vous pourriez participer de façon plus active à l'audience. Vous pouvez :

- faire parvenir à la CEO une lettre de commentaires qui sera examinée durant l'audience;
- demander la permission de la CEO de participer activement à l'audience (à titre d'intervenant). Les intervenants peuvent fournir des preuves, défendre leurs positions et soumettre des questions pertinentes auxquelles devra répondre Ontario Power Generation Inc. (interrogatoires par écrit). Pour devenir intervenant, une partie doit être concernée par la ligne de transport d'une manière directement liée aux questions qu'examinera la CEO. Si vous souhaitez être un intervenant, la CEO doit recevoir votre demande au plus tard le **25 août 2014**.

## **SOYEZ MIEUX RENSEIGNÉ**

Pour en savoir plus sur cette audience, sur les démarches à suivre pour déposer des lettres ou pour devenir un intervenant, ou encore pour consulter les documents concernant cette audience, veuillez sélectionner le numéro de dossier **EB-2014-0194** de la liste sur le site Web de la CEO [www.ontarioenergyboard.ca/noticeltc](http://www.ontarioenergyboard.ca/noticeltc). Si vous avez des questions, vous pouvez également communiquer avec Robert Caputo au 1-888-632-6273, poste 632.

## **Audiences orales et écrites**

Il existe deux types d'audience à la CEO : orale et écrite. Ontario Power Generation Inc. a déposé une requête pour une audience écrite. La CEO prend cette requête en considération. Si vous croyez qu'une audience orale doit avoir lieu, vous pouvez écrire à la CEO pour expliquer pourquoi au plus tard le **25 août 2014**.

## **Confidentialité**

Si vous écrivez une lettre de commentaires, votre nom et le contenu de votre lettre seront versés au dossier public de la CEO et publiés sur son site Web. Toutefois, votre numéro de téléphone, votre adresse et votre adresse courriel seront supprimés. Si vous êtes une entreprise, tous vos renseignements seront accessibles au public. Si vous faites une requête de statut d'intervenant, tous vos renseignements seront du domaine public.

Cette requête a été déposée en vertu des articles 92 de la *Loi de 1998 sur la Commission de l'énergie de l'Ontario*, L.O. 1998, chap. 15, annexe B.

Good morning Greg,  
From the email received below, I have attached the document received from OPG regarding the OEB Notice. It is dated stamped as being received on August 13, 2014 in the Executive Office.  
I hope is will suffice to the request.  
Lillian

**Re: Service of Notice of Application for Leave to Construct  
Transmission Facilities for New Post Creek Generating Station**

Dear Chief Hardisty,

Please find attached an Ontario Energy Board Notice regarding an application by Ontario Power Generation Inc., to build a 115 kilovolt electricity transmission line in partnership with Coral Rapids Power Limited Partnership.

The transmission line would connect a proposed 25 megawatt New Post Creek hydroelectric generating station to an existing Hydro One transmission line west of the Abitibi River.

Yours truly,

A handwritten signature in black ink that reads "Greg Towstego".

Greg Towstego

To: MACLEOD Gillian -ENVIRONMENT  
Subject: RE: Confirmation that you received OEB package

Gillian,

Yes, I verify I did receive by email information package back in August regarding; "Service of Notice of Application for leave to construct transmission facilities for New Post Creek Generating Station."

Allan

Subject: Confirmation that you received OEB package

Dear Chief Jolly,

It was a pleasure talking to you today. As discussed, can you please confirm via -email response that you did in fact receive an information package sent on Aug 6, 2014 RE: Service of Notice of Application for Leave to Construct Transmission Facilities for New Post Creek Generating Station.

Please note we are just seeing written acknowledgement that you received the information package. You can just do a reply to this email ; as well my email address is in the cc list.

If you have any questions, please feel free to call me at 416-592-3481

I appreciate your attention to this matter

Regards

Gillian MacLeod  
Sr. Environmental Advisor  
Ontario Power Generation
