Ms Kirsten Walli

Don and I are requesting a time line extension in order to gather and study all of the information sent to us regarding wpd Fairview Wind Incorporated's request asking the Ontario Energy Board to determine the location of the distribution line.

We were out of the country and only received our package on August 29, 2014. We are directly affected by this line and need time to put together our argument.

We are requesting to be active participants (intervenors) in the hearing.

We are also requesting an oral hearing rather than a written hearing as we feel we are better able to articulate our concerns verbally.

Than you for your consideration

Lynne Coutts
