ONTARIO ENERGY BOARD

Dear Ms. Walli:

Re: NextEra Energy Canadian Operating Services Inc. electricity generation licence (EG-2012-0311) amendment to operate Goshen Wind Energy Centre

We are counsel to NextEra Energy Canadian Operating Services Inc. ("NEC OSI"). On behalf of NEC OSI, we hereby request that Schedule 1 of NEC OSI's Electricity Generation Licence (EG-2012-0311) be amended to include the operation of the Goshen Wind Energy Centre ("GWEC").

NEC OSI will be the operator of the GWEC. The GWEC is a proposed 102 MW wind power generating facility which will be located in Huron County. The GWEC will have sixty-two GE 1.6-100 wind turbines and one GE 1.56-100 wind turbine, for a total installed capacity of 102 MW. The GWEC is being developed pursuant to a power purchase agreement with the Ontario Power Authority ("OPA") under the OPA's feed-in-tariff program (FIT Reference #: F-002174-WIN-130-601). The GWEC will be owned by Goshen Wind, LP. Goshen Wind, LP has applied for an electricity generation licence under separate cover.

NEC OSI requests that this amendment application be disposed of without a hearing, and hereby provides its consent to same. NEC OSI submits that in accordance with the requirements of s. 21(4)(b) of the *Ontario Energy Board Act, 1998*, no person will be adversely affected in a material way by the outcome of this amendment application proceeding.

Please contact the undersigned with any questions regarding the foregoing.

Yours truly,

McCarthy Tétrault LLP
