Dear Ms. Walli:

It has come to Tillsonburg Hydro Inc.'s ("THI") attention that the original 2015 4th Generation IRM Electricity Distribution Rate Application, filed on October 9, 2014 contained an error. The Rate Generator Model indicated that THI was requesting to file the "Annual IR Index" instead of the "Price Cap IR". THI has changed the Rate Generator Model to indicate the request for a "Price Cap IR". THI has filed through the OEB's RESS system, this letter, along with the revised Rate Generator Model.

Please contact myself should anything further be required. I may be reached at 519-842-6428 X3229.

Sincerely,
