

EB-2014-0162

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B);

AND IN THE MATTER OF an application by Milton Hydro Distribution Inc. for an order, approving the recovery of certain amounts related to the restoration of electricity service in the Town of Milton due to an ice storm in December 2013, to be effective November 1, 2014 for 18 months.

BEFORE: Christine Long
Presiding Member

Allison Duff
Member

FINAL RATE ORDER

October 30, 2014

Milton Hydro Distribution Inc. ("Milton Hydro") filed an application with the Ontario Energy Board (the "Board") on April 16, 2014 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B), seeking approval for the recovery of certain amounts related to the restoration of electricity service in the Town of Milton due to an ice storm in December 2013.

The Energy Probe Research Foundation ("Energy Probe") and the Vulnerable Energy Consumers Coalition ("VECC") applied for and were granted intervenor status and cost eligibility.

In its Decision and Order issued on October 16, 2014, the Board ordered Milton Hydro to file a draft Rate Order that includes a proposed Tariff of Rates and Charges and all

relevant calculations showing the impact of this Decision and Order on Milton Hydro's determination of the final rates. The Decision and Order also made provision for Board staff and intervenors to comment on the draft Rate Order, including the proposed rates and all calculations within 7 days of filing of the draft Rate Order, as well as a reply submission by Milton Hydro.

Milton Hydro filed a draft Rate Order on October 21, 2014. Board staff and intervenors reviewed the draft and confirmed to the Board they had no issues with the draft Rate Order.

The Board has reviewed the information provided in support of the draft Rate Order and the proposed Tariff of Rates and Charges. The Board is satisfied that the Tariff of Rates and Charges filed by Milton Hydro accurately reflects the Board's Decision.

THE BOARD ORDERS THAT:

1. The Tariff of Rates and Charges set out in Appendix A of this Order will become final effective November 1, 2014, and will apply to electricity consumed or estimated to have been consumed on and after November 1, 2014. Milton Hydro shall notify its customers of the rate changes no later than the delivery of the first bill reflecting the new rates.

DATED at Toronto, October 30, 2014

ONTARIO ENERGY BOARD

RESIDENTIAL SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to detached, semi-detached and townhouse residential buildings as defined in local zoning bylaws. A residential service is a single-family unit used for domestic or household purposes, including seasonal occupancy. At Milton Hydro's discretion, residential rates may be applied to apartment buildings with 6 or less units by simple application of the residential rate by blocking the residential rate by the number of units. Further servicing details are available in the distributor's Conditions of Service.

Where the residential dwelling comprises the entire electrical load of a farm, it is defined as a residential service. Where the residential dwelling does not comprise the entire electrical load of the farm:

- The service will be defined as a General Service if the occupant derives his/her principal livelihood from the working of the farm;
- The service will be defined as a Residential Service if the occupant does not derive his/her principal livelihood from the working of the farm;
- Where the residential farm dwelling is supplied by one separately metered service and the electrical loads in other buildings are supplied by a different separately metered service, then the former is defined as a Residential Service and the latter is defined as a General Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.
