NOTICE OF INTERVENTION

OF

ENERGY PROBE RESEARCH FOUNDATION

Energy Probe Research Foundation (Energy Probe) applies for intervenor status in this proceeding.

Statement of Interest

Energy Probe is a non-profit environmental and consumer organization which promotes economic efficiency in the use of resources. Energy Probe will be representing its residential customer supporters in Ontario, which we have some number of thousands, and also representing a broader concern with respect to the overall financial health and operational integrity of our utilities. Energy Probe will be intervening on issues which the Foundation believes to be in the residential ratepayer interest.

Intervention

Energy Probe intends to participate in the proceeding. Energy Probe expects to be an all issues intervenor and will be assisted by experts. It expects to review a number of the discrete issues related to the proposed Incremental Capital Module recovery raised in the application, including the amount, the incremental nature of those costs and the causation, materiality and prudence of the costs. In addition, Energy Probe will be reviewing the reasonableness of the assignment of costs to OM&A versus capitalized costs and the rate rider calculation and proposed term for that rider.

Communications

Communications relating to this Notice of Intervention, including but not limited to a copy of all documents filed with the Board by Niagara-on-the-Lake Hydro, are required by Energy Probe and should be directed to:
