RE: Case EB-2014-0140

Dear Ms. Walli:

This letter serves as Holcim (Canada) Inc (nee Holcim) 's request for intervenor status in the referenced case regarding HydroOne Networks Inc.

Holcim operates a cement manufacturing plant in Mississauga, Ontario, and its' wholly-owned Dufferin affiliate operates multiple cement and asphalt production plants and aggregate quarries through the province. In total, Holcim's operations in the province consume a significant amount of power throughout the province, so any increase in electric transmission costs will impact our businesses.

Holcim will not file any initial comments in this case, and will not seek any reimbursement for it's intervention.

Please contact the undersigned with any communications regarding this request.

Sincerely,

A handwritten signature in black ink that reads 'Edward J. Martell'.

Edward J. Martell
