

Burlingtonhydro inc.

Ontario Energy Board  
2300 Yonge Street, Suite 2701  
Toronto, ON M4P 1E4  
Attn: Ms. K. Walli  
Board Secretary

November 4, 2014

Dear Ms. Walli

Re: EB-2014-0252

Burlington Hydro has further reviewed its responses to Board staff interrogatories 3 and 12, and, to Energy Probe interrogatory 3 in the above named matter.

Burlington Hydro wishes to revise its response to Board staff interrogatory 2 to compute the materiality threshold based on the Distribution Revenue Requirement; please see Attachment A.

Burlington Hydro wishes to clarify its response to Board staff interrogatory 3. Burlington Hydro confirms that its written prefiled evidence provided at Exhibit 1, page 9 under the caption "Incrementality" does indeed deal with "Causation" and that it should be read in conjunction with the evidence provided at Exhibit 1, page 4. Burlington Hydro acknowledges that the caption on page 9 could equally well have read "Causation".

To further expand on the responses to Board staff interrogatory 12 and Energy Probe interrogatory 3, Burlington Hydro provides Attachment B that details the Company's Distribution Maintenance budgets and actual costs for 2009-2013. Distribution Maintenance costs relate to a wide range of activities including, among other things, Burlington Hydro's unplanned costs to restore service subsequent to inclement weather. As the schedule shows, Burlington Hydro overspent its "Distribution Maintenance" budget in 2011, 2012 and 2013. Burlington Hydro changed its Overheads accounting policy in 2013 and its data is not sufficiently granular to display its impact on this line item.

Please do not hesitate to contact me if you have questions in this matter.

Sincerely
