Dear Ms. Walli:

Re: wpd White Pines Wind Incorporated Application for Leave to Construct Transmission Facilities, Ontario Energy Board File Number EB-2013-0339 and Environmental Registry Number 012-1279

We are the solicitors for the Alliance to Protect Prince Edward County (APPEC), an intervenor in the proceedings for this application. We write in response to the letter sent by Counsel for the Applicant on November 3, 2014.

With all due respect, APPEC takes issue with the Applicant's characterisation of our client's request for clarification on this matter from the Board as an attempt to cause further delay in this Application. While both APPEC and the Ministry of the Environment have expressed their views, in our client's opinion, this issue is one that requires a determination by the Board and, as such, there is nothing improper about requesting same.

Furthermore, given the delay in this process created by the Applicant's amendments to its System Impact Assessment and the need to await the filing of that document with the Board, which was only filed on October 23, it is not appropriate for the Applicant to now be raising delay against our client in this matter.

Thank you for your attention to this matter.

Yours very truly,

ERIC K. GILLESPIE
