Dear Ms. Walli:

**Re: EB-2014-0333 – Union Gas Limited Sarnia Expansion Pipeline Project
Intervention Request**

NOVA Chemicals (Canada) Ltd. ("NCCL") has received the Ontario Energy Board Notice regarding the Union Gas Limited ("Union") Sarnia Expansion Pipeline Project and respectfully requests intervenor status in this proceeding.

NCCL owns and operates petrochemical facilities in the Sarnia area which rely on natural gas fuel transported in Union's pipeline system. As stated in Union's application, NCCL recently contracted for new, long term firm transportation delivery services with Union Gas to meet our growing demand for natural gas. Union's proposed pipeline and ancillary facilities will ensure that Union will have sufficient capacity available to continue its reliable and safe delivery of natural gas to NCCL.

NCCL is a large, long term customer of Union and will be directly affected by the outcome of this proceeding. NCCL supports the approval of Union's application.

NCCL agrees with Union's request for a written hearing.

NCCL requests that copies of all evidence and correspondence related to this proceeding be distributed to the NCCL representatives described below:
