INTERROGATORIES**

Energy Probe - 1

Ref: Manager's Summary, Page 40

Does CND agree that allocating costs based on distribution revenue is a proxy for allocating costs based on the allocation of overall total costs to rate classes? If not, why not?

Energy Probe - 2

Ref: Manager's Summary, Page 33

Are Supervisory staff normally eligible for overtime?

Energy Probe - 3

Ref: Manager's Summary, Pages 30, 39 & 40

Please provide a table similar to Tables 20 and 21 that shows the allocation and rate rider calculation based on the Z-factor costs being allocated in the same manner as the storm costs shown in Table 13 in CND's latest Cost of Service Application (EB-2013-0116).

Energy Probe - 4

Ref: Manager's Summary, Pages 39 - 41

- a) What is the basis of the customer figures by rate class shown in Tables 20 and 21?**

- b) Please provide the most recent month available for the actual number of customers by rate class.**
- c) Does CND have a forecast of the number of customers by rate class at May 1, 2015 and April 20, 2016? If yes, please provide a table showing the number forecast by rate class at both points in time.**
- d) Please confirm that CND will track the revenue received through the Z-factor rate rider by rate class and at the end of the proposed clearance period, the balance in the account, by rate class, will be cleared to the customers in each of the rate classes. If this cannot be confirmed, please explain.**
