Secretary

Ontario Energy Board. File EB 2014-0300.

I would like to be an observer of this hearing "Monitor Status"

I am asking for an oral hearing as I have vision difficulties and cannot read fast enough to comprehend written material.

I am concerned that the electric substation and transmission lines and the construction and erection of same will have a detrimental effect on the nearby school and the students there.

I object to 80 foot high poles regardless of material sticking up above our historically low rise horizon to the west of the school.

Yours sincerely.

Marc Raymond
