Dear Ms. Walli:

Re: EB-2014-0068 – Enersource Hydro Mississauga Inc. 2015 Rate Application Decision and Rate Order

The Board issued its Decision and Rate Order on December 4, 2014 in this proceeding. The Decision and Order approved new distribution rates to be effective January 1, 2015. Appendix A to the Decision and Order provided a Draft Tariff of Rates and Charges.

Enersource is pleased to advise the Board that it has found no inaccuracies or missing information in the Draft Tariff of Rates and Charges and, thus, will be implementing this Rate Order as of January 1, 2015. However, Enersource does note a difference in the OEB Incentive Regulation Model (the Model) with respect to Retail Transmission Service Rates (RTSR). The original version of the Model included Hydro One rate riders in the determination of the proposed 2015 RTSR (Tab 15. RTSR - UTRs & Sub-Tx), whereas the latest version of the Model attached to the Board's Decision excludes those rate riders. Enersource agrees that the rate riders should be excluded due to the expiry of the riders on December 31, 2014.

Two copies of this letter will be sent to the Board in addition to filing this letter via RESS.

If you have any questions or concerns, please do not hesitate to contact me at (905) 283-4098.

Sincerely,
