Subject: RE EB 2014-0300 Windlectric Application

Dear Sir/Madam:

I respectfully request that the Ontario Energy Board conduct an oral hearing of the application by Windlectric Inc. to construct a high voltage transmission line, substation and steel poles on Amherst Island (File EB 2014-0300).

It is my understanding that the proposed construction site is in very close proximity to Amherst Island Public School.

I believe that an oral hearing is important for reasons of transparency and to afford the affected parties (e.g. parents of children who attend the school) an opportunity to participate in this most important discussion.

I also request that you register me as a monitor and provide notice of the proceedings.

Regards,

Steve Perry
