

December 16, 2014

Kirsten Walli
Board Secretary
Ontario Energy Board
2300 Yonge Street, 27th Floor
Toronto, Ontario M4P 1W4

Dear Ms. Walli:

**Re: Oakville Hydro Electricity Distribution Inc.
2015 IRM Distribution Rate Application
Response to Board Staff's Comments on the Draft Rate Order
Board File No. EB-2014-0102**

On December 4, 2014, the Board issued its Decision and Order in the above noted proceeding. In accordance with the Board's Decision and Order, Oakville Hydro filed a draft rate order reflecting the Board's findings on December 9, 2014. On December 12, 2014, Board staff filed comments on Oakville Hydro's draft rate order. In its comments, Board staff noted the following:

- The billing determinant for the Rate Rider for Disposition of Incremental Capital Expenditures - effective until April 30, 2015 for the street lighting class should be kW rather than kWh.
- The description for the Rate Rider for Ice Storm Cost Recovery – effective until December 31, 2015 for the street lighting class should only appear once on the Tariff of rates and charges.
- The Late Payment per month and Late Payment per annum charges should be rounded to two decimal places.

Oakville Hydro asks that Board staff update the Rate Generator model to correct these errors.

Respectfully Submitted,
