ONTARIO ENERGY BOARD

Dear Ms. Walli,

**Re: Letter of Direction, and Notice of Application and Written Hearing
Canadian Energy Protection Corp. GM & ER Licence applications
Board File Number: EB-2014-0342 & EB-2014-0343**

Please be advised of the completion of the following items in relation to the Board's Letter of Direction dated December 8th, 2014.

- Both the English and French versions of the notice, including all graphics and the words "Ontario Energy Board" have now been added to, and will remain on the Canadian Energy Protection Corp. website.
- Copies of the applications, evidence, and any amendments thereto have also been made available for public review, and Canadian Energy Protection Corp. will provide copies to anyone who requests this material.

Please note that while the construction of Canadian Energy Protection Corp.'s website has been completed, the site is offline and not yet live. As a result of the site's content being mainly aimed at consumer education, and towards the acquisition of new customers for the provision of natural gas and electricity, it's in the best interest of consumers if access to the site is restricted until such time that Canadian Energy Protection Corp. possesses the necessary licences required to acquire such customers.

The website is ready to launch at anytime, and screen shots of any section can be made available to the Board immediately upon request.

Should you require any additional information, please don't hesitate to contact me further.

Sincerely,

*Mark Cunningham
