

**EB-2014-0361**

**NOTICE OF APPLICATION  
AND INTERIM ORDER**

**Natural Resource Gas Limited  
Request for Relief from Interest on Amounts due from Natural Resource Gas  
Limited to Union Gas Limited**

Natural Resource Gas Limited (NRG) filed a request by way of letter dated December 1, 2014, that the Board grant rate relief and/or a stay from the imposition of interest on any amounts due for payment from NRG to Union Gas Limited (Union) related to the application of certain penalty charges. A copy of NRG's letter is attached to this Notice.

NRG's letter indicated that a decision on the request was urgently needed. The Board recognizes that interest will continue to accrue pending the Board's decision on the request. In these circumstances, the Board, under section 21(7) of the *Ontario Energy Board Act, 1998*, grants an interim order that interest will not be charged to NRG pending the Board's final disposition of this matter. If the Board ultimately determines that NRG's request should be denied, the Board will have the ability to retrospectively require NRG to pay the interest that would have accrued during this interim period.

The Board will provide details as to the procedure to be followed in this matter in due course.

**DATED** at Toronto, December 19, 2014

**ONTARIO ENERGY BOARD**
