## RE: EB-2014-0273 - UNION GAS - 2013 DSM DEFERRAL ACCOUNT DISPOSITIONS

### **REQUEST & SUPPORT**

We are writing on behalf of the Ontario Greenhouse Vegetable Growers ("OGVG") in regard to the referenced Notice of Application. The Application by Union Gas, pursuant to the Ontario Energy Board Act, 1998, requests an order or orders approving or fixing just and reasonable rates for the disposition of deferral or variance accounts effective April 1, 2015. The resulting rates impact the members of OGVG.

The Ontario greenhouse vegetable sector is a major contributor to the Ontario economy, generating over \$783 million in farmgate receipts and accounting for 12,000 jobs annually. OGVG, as an organization, represents all 218 greenhouse pepper, tomato and cucumber growers in the province. Given the nature of greenhouse production systems, OGVG members are heavily reliant on energy, particularly natural gas. Over one third of greenhouse production costs are energy-related and as such rate increases and pricing adjustments serve to threaten the global competitiveness of the sector.

The Ontario greenhouse sector is growing. In fact, in evidence filed by Union Gas in its 2013 rate case, the greenhouse sector was shown to be the fastest growing sector of Union's business markets exhibiting a doubling of volume between the 2007 Board-approved and the 2013 Forecast volumes.<sup>1</sup> OGVG members' natural gas consumption is important to Union Gas and greenhouse production in general is important to the Ontario economy.

As a not-for-profit organization, OGVG does not have other funding sources to ensure experienced representation to participate in and assist the Board with these regulatory proceedings. Therefore OGVG would respectfully request a determination of eligibility for cost award in this proceeding. OGVG has retained professionals who have experience representing intervenor interests and, OGVG respectfully submits, have assisted the Board in previous proceedings in an efficient and responsible manner.

### **ISSUES OF CONCERN**

OGVG understands that this proceeding and similar proceedings impact the rates that are charged by the natural gas distributor. Accordingly OGVG respectfully requests intervenor status and the opportunity to participate in the Board's review of the Application.

OGVG has an interest in many aspects of this rate-making proceeding but is particularly concerned with the potential of double digit percentage rate increase arising from the implementation of proposed dispositions to the contract rate classes.

### **REPRESENTATION**

If the intervention requested is granted, then OGVG asks that further communications with respect to this matter be sent to the following:
