## LETTER OF COMMENT

### Comments:

This is a request for the increase in hydro distribution rate to be disallowed. The cost now is outrageous and an increase is inexcusable. The energy board is there to protect consumers, I am asking them to do so by not giving an increase in rates to hydro one. This company needs to look within to operate it's business. The solar cost waste, the R&D for wind power that is useless and the cross border sell offs at a constant financial loss are but just a few. This does not even take a look at the three figure pay cheques that need to be addressed. I look forward in hopes of a decision that will elevate the stress that the consumer bears with this company.
