**Re: Horizon Utilities Corporation
Application for 2015 - 2019 Distribution Rates
Board File Number: EB-2014-0002**

In its Rate Order dated January 8, 2015 the Board approved the Tariff of Rates and Charges filed by Horizon Utilities Corporation on December 18, 2014. Due to an error, the monthly service charge for street lighting service was identified as 'per connection' rather than 'per device', as had been identified on page 428 of Horizon's draft rate order.

Pursuant to its powers under Rule 43.02 of the Board's Rules of Practice and Procedure, the Board may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar error made in its orders or decisions.

The Board has amended the Tariff of Rates and Charges for the street lighting class so that the monthly service charge reads 'per device'. The Board finds that this wording accurately describes the method by which the \$2.82 monthly charge was determined: it reflects the device count of 52,384, the fixed ratio of 68.23%, and the \$2.6M class revenue requirement for 2015 that were each determined through the proceeding and ensuing draft rate order process.

The revised Tariff of Rates and Charges is attached. This revised Tariff of Rates and Charges supersedes and replaces any previously approved tariff of rates, charges and loss factors.

Yours truly,
