ONTARIO ENERGY BOARD

IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S.90.(1) thereof;

AND IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, S. 36 thereof;

AND IN THE MATTER OF an Application by Union Gas Limited for an Order or Orders for approval of recovery of the cost consequences of all facilities associated with the development of the proposed Burlington Oakville Project;

UNION GAS LIMITED

1. Union Gas Limited (the “Applicant” or “Union”) hereby applies to the Ontario Energy Board (the “Board”), pursuant to Section 90(1) of the Act, for an Order or Orders granting leave to construct approximately 12 kilometres of NPS 20 pipeline from the Board-approved Parkway West Station to Union’s existing Bronte Gate Station located east of Ninth Line and south of Dundas Street East in the Town of Oakville (the “Proposed Pipeline”).
2. The Applicant also hereby applies to the Board, pursuant to Section 36 of the Act, for an Order or Orders granting:
 - a) approval of recovery of the cost consequences of all facilities associated with the development of the proposed Burlington Oakville Project from ratepayers; and

- b) approval of an accounting order to establish the Burlington Oakville Deferral Account.
3. A map showing the general location of the Proposed Pipeline, and associated facilities and the municipalities, highways, railways and utility lines through, under, over, upon or across which the pipeline will pass is presented at Schedule A.
4. The parties affected by this Application are the owners of lands, government agencies and municipalities over which the pipeline will be constructed, and Union's distribution customers with respect to quality of service and security of supply. The persons affected by this Application are the customers resident or located in the Municipalities and First Nations Reserves served by Union, together with those to whom Union sells gas, or on whose behalf Union distributes, transmits or stores gas. It is impractical to set out in this Application the names and addresses of such persons because they are too numerous.
5. The Applicant now therefore applies to the Board for an Order or Orders for approval of recovery of the cost consequences and granting leave to construct the Proposed Pipeline as described above.
