Dear Ms. Walli:

Re: Notice of Proceeding on Commodity Pricing;
Board File Number EB-2008-0106

The Board has issued a Notice of Proceeding to commence a proceeding on its own motion to determine the methodology to be used by natural gas distributors for (i) gas commodity pricing, (ii) load balancing, and (iii) cost allocation between supply and delivery functions, in relation to regulated gas supply. The file number assigned to this proceeding is EB-2008-0106.

ECNG Energy L.P. ("ECNG") wishes to confirm its interest in participating as an Intervenor in this proceeding.

The evolution of the natural gas markets in Ontario is of vital interest to ECNG and its clients - industrial, commercial and institutional corporations with over 10,000 end-use meter locations. Each of the consumers utilize the services provided by natural gas distribution services today. Any potential changes to the pricing of these services or the cost allocation policies may have a material impact on ECNG Energy's clients at their thousands of end-use locations.

We do anticipate submitting evidence and participating in the hearing at this time. We wish to receive all documents issued by the Board in this matter. Further, we request delivery of all submissions made by all participants. Electronic delivery is acceptable.

ECNG will not be seeking costs in this proceeding.
