Zizzo Allan DeMarco LLP 41-A Avenue Road, Toronto ON M5R 2G3 1. Zizzo Allan DeMarco LLP is counsel to the Association of Power Producers of Ontario ("**APPrO**") and hereby requests intervenor status on APPrO's behalf in the above-noted proceeding.

A. APPrO and its Interest in the Proceeding

- 2. APPrO is a non-profit organization representing more than 100 companies involved in the generation of electricity in Ontario, including generators and suppliers of services, equipment and consulting services. APPrO's members produce electricity from natural gas, hydro, nuclear, wind, biogas and other sources.
- 3. Certain of APPrO's members contract for significant quantities of both transmission and distribution services from Union Gas Limited ("Union") and have and continue to be affected by bottlenecks in the gas transportation systems. APPrO members stand to be directly affected by the issues raised by Union in its application to the Ontario Energy Board (the "Board") dated December 12, 2014 (the "Application"), as Union's proposed construction of a natural gas pipeline to expand its transmission system in the Towns of Milton and Oakville, and proposed recovery of the cost consequences thereof, may have a considerable impact on the amounts paid by APPrO members as Rate 100, Rate 20 and T2 customers of Union. As a result, APPrO's members have a direct, significant and unique interest in this proceeding that may be of interest to all customers.

B. APPrO's Experience as a Frequent Intervenor

4. APPrO has a record of participating responsibly in Board proceedings as an intervenor. A description of APPrO, its mandate and objectives, membership and representative constituency, and programs and activities are summarized in Attachment I.

C. Nature and Scope of APPrO's Intended Participation

- 5. APPrO intends to be an active participant in this proceeding, and will act responsibly to coordinate with other intervenors where common issues may arise and be otherwise addressed. APPrO intends to participate through counsel to request information, participate in any requisite motions, test evidence through the stipulated processes, submit written interrogatories and provide argument in accordance with the Board's procedures stipulated for this proceeding. Subject to the development of the record in this matter, APPrO may also submit evidence.
- 6. APPrO will consider and refine its interests in this proceeding on an ongoing basis, upon further review of the Application and in accordance with the directions of the Board. APPrO reserves its right to participate on any further related issues that may arise as the Application proceeds.

D. Request for Written Evidence

7. APPrO requests that a copy of the written evidence upon which the Application is based be

provided to its counsel and consultant.

E. Costs

8. In accordance with s. 3.03(a) of the Board's Practice Direction on Cost Awards, APPrO is eligible

to seek an award of costs from Union, as APPrO is a party that primarily represents the direct

interests of consumers in relation to services that are regulated by the Board.

9. The Board has deemed APPrO an intervenor eligible for costs in previous proceedings. These

proceedings include, among others: Union's 2013 Rebasing Proceeding (EB-2011-0210); Union's

application for an order of the Board amending or varying the rate or rates charged to customers

as of October 1, 2012 in connection with the sharing of 2011 earnings under the incentive rate

mechanism approved by the Board (EB-2012-0087); and Union's application for an order or

orders approving a one-time exemption from Union Gas Limited's approved rate schedules to

reduce certain penalty charges applied to direct purchase customers who did not meet their

contractual obligations (EB-2014-0154). APPrO believes it is appropriate for the Board to award

APPrO costs in the context of this proceeding as well.

F. Preferred Language

10. APPrO's preferred official language for correspondence is English.

G. APPrO's Representatives

11. If APPrO is granted intervenor status by the Board, APPrO requests that further communications

with respect to this proceeding be sent to the following:

ALL OF WHICH IS RESPECTFULLY SUBMITTED THIS 2nd day of February, 2015

Lisa (Elisabeth) DeMarco Zizzo Allan DeMarco LLP Counsel for APPrO

ATTACHMENT I

The Association of Power Producers of Ontario

Description

The Association of Power Producers of Ontario ("APPrO") is a not-for-profit trade and professional organization which represents Ontario-based commercial electricity generators and suppliers of services, equipment and consulting services. APPrO is the largest organization of its type in Canada. APPrO was established in 1986 as the Independent Power Producers' Society of Ontario and changed its name to APPrO in 2003.

Mandate and objectives

APPrO's principal objective is the achievement of an economically and environmentally sustainable electricity sector in Ontario that supports the business interests of electricity generators. APPrO's role in the electricity sector is to raise awareness and understanding of its members' concerns with senior decision-makers in government, regulatory bodies and the public at large.

Membership and representative constituency

APPrO currently has about 100 corporate members, who collectively produce more than 95% of the electricity made in Ontario. APPrO's members produce electricity from a range of sources, including natural gas, hydroelectricity, cogeneration, wind power, solar energy, biomass, biogas, nuclear energy, and other sources. The total value of assets owned or operated by APPrO members is estimated at more than C\$50 billion, and the total annual sales of electricity by APPrO members exceeds C\$7 billion per year (wholesale value).

Programs and activities

APPrO acts as an advocate for its members. It aims to have a voice on regulatory and policy issues which affect generators in Ontario, including electricity market rules, power procurement processes, the regulation of the natural gas market (both provincially and federally), climate change rules and compliance mechanisms, approval requirements, transmission development, distributed generation, and a number of other issues. APPrO is a leading advocate for public policies and regulatory treatments that it believes will facilitate the development of power generation in the province and assist in the development of a more open and competitive market for power.

APPrO also organizes industry conferences and produces a number of publications. APPrO's magazine, IPPSO FACTO, is an authoritative periodical on the electricity business and policy issues in Canada.

APPrO's authorized representative in OEB proceedings

APPrO's authorized representative in proceedings before the Ontario Energy Board (the "Board") is Zizzo Allan DeMarco LLP ("ZAD"), represented by Lisa (Elisabeth) DeMarco, with support from ZAD associates and clerks. ZAD's representation of APPrO in proceedings before the Board is pursuant to a written retainer agreement. APPrO will also be assisted in these proceedings by its consultant John Wolnik of Elenchus.
