Dear Ms. Walli:

Board File No. EB-2014-0252
Burlington Hydro Inc. --- Z Factor Application
Energy Probe – Comments on the Draft Rate Order

Pursuant to the Decision and Order, issued January 29, 2015, the following are the Comments of Energy Probe Research Foundation (Energy Probe) in respect of the draft rate order in the EB-2014-0252 proceeding for consideration of the Board.

Energy Probe has reviewed the draft rate order filed by Burlington Hydro Inc. on February 2, 2015. Energy Probe believes that the draft rate order appropriately and accurately reflects the Board Decision in this matter dated January 29, 2015.

The Board found it was appropriate to calculate the rate riders based on the actual customer numbers as of September, 2014. However, it is not clear to Energy Probe that the figures used for the number of customers in the draft rate order are correct. Energy Probe notes that the customer numbers used in the draft rate order in Table 2 are different from the customer numbers provided in the response to part (c) of Energy Probe Interrogatory #5, which are identified as the number of customers and connections as of September 30, 2014.

Energy Probe invites Burlington Hydro to clarify which set of figures are the actual numbers for September, 2014.

Should you require additional information, please do not hesitate to contact me.
