Dear Ms. Walli:

RE: EB-2014-0261 – Union Gas Limited (“Union”) – Dawn Parkway 2016 Expansion Project
Draft Issues List Comments

Union received a copy of a letter from Mr. John Goudy setting out GAPLO’s comments on the Draft Issues List for this project. Union has the following comments for the Board’s consideration in finalizing the Issues List for this proceeding.

- 1) GAPLO’s suggested issues a) through c) all relate to the environmental assessment. Union believes they are covered by the current Issue No. 5 :

Do the facilities address the OEB Environmental Guidelines for Hydrocarbon Pipelines as applicable.

- 2) GAPLO issue d) relates to “land restoration” and “construction impact mitigation” and is covered by current Issue No. 6 :

Are there any outstanding landowner matters for the proposed facilities with respect to routing and construction matters?

- 3) GAPLO’s issue e) is raised in relation to s. 97 of the OEB Act. In this case, Union proposes that the issue more specifically track that section. Accordingly, Union proposes the following issue, to the extent the Board believes it is necessary:

Is the form of agreement offered by Union or that will be offered by Union to each owner of land affected by the approved route or location appropriate?

- 4) Union does not understand GAPLO’s suggested issue f): “What is the status of the required permanent and temporary land rights?” To the extent it relates to any outstanding landowner matters, it is covered by existing Issue No. 6.

Yours truly,
