Dear Ms. Bellavance and Mr. Giorno:

**Re: Suncor Energy Products Inc. ("Suncor")
Application for Leave to Construct Transmission Facilities
Board File No. EB-2014-0022**

In your correspondence to the Board dated September 2, 2014, at page 5, paragraph (c), WAIT-PW submitted that: "the Hydro One Networks Inc.'s (Hydro One) Customer Impact Assessment report is not valid for the Applicant's Proposed Transmission Facilities because it references a different location and the Applicant has not disputed that fact".

The Board notes WAIT-PW's argument that the Customer Impact Assessment (CIA) report is not valid because it references a different location. The Board further notes that at section 1.2.1 of the CIA Addendum Report, the report states that the Cedar Point Customer Generation Station (CGS) is located in the Municipality of Adelaide-Metcalfe while the application states that the transformer station associated with the Cedar Point Project is located in the Township of Bosanquet in the Municipality of Lambton Shores.

The Board requests that WAIT-PW indicate if this is the discrepancy that it is referring to in its argument and if not, to fully describe the discrepancy or discrepancies that led to its argument.

Please provide a response by February 13, 2015.

Yours truly,

Original signed by

Kirsten Walli
