Girl, 10, struck by fragments after shots fired at house

Girl did not require medical attention; police trying to determine whether home shot with pellets or bullets

OSHAWA -- Police are trying to figure out whether it was bullets or pellets that injured a 10-year-old girl when shots were fired through the front living room window of an Oshawa house. It happened at roughly 11:30 p.m. Saturday, Feb. 21 in the Dean Avenue and Normandy Street area. The shots fired through the window bounced off a wall and fragments of it struck the girl, who was sitting on a couch.

The injuries, to her arm, were minor and she did not require medical attention.

Police found two holes in the window and they've sent the projectile fragments for analysis.

Officers, including the tactical unit and the Air 1 helicopter, searched the area but did not find any suspects. Police believe the shooting may be a case of mistaken identity.

Anyone with information about the investigation should call Det. Dellipizzi of the Central East Criminal Investigations Bureau at 1-888-579-1520 ext. 2766. Anonymous information can be sent to Durham Regional Crime Stoppers at 1-800-222-TIPS (8477) or online at www.durhamregional-crimestoppers.ca and tipsters may be eligible for a \$2,000 cash reward.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The OEB will hold a public hearing to consider Oshawa PUC's request. We will question the company on its case for a rate increase. We will also hear arguments from individuals and from groups that represent Oshawa PUC's customers. At the end of this hearing, the OEB will decide whether the electricity distribution rates Oshawa PUC has applied for are reasonable.

If Oshawa PUC's application is approved, the OEB's review in the years 2016 through 2019 will be limited to ensuring certain annual adjustments are made in accordance with the approved rate plan.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
