**Re: Hydro One Networks Inc., Leave to Construct and Cost Allocation Issue  
Procedural Order No. 3, January 28, 2015 – Intervenor Request  
Board File No.: EB-2013-0421**

Dear Ms. Walli,

On January 28, 2015, the Board published Procedural Order No. 3 directing a phased approach for the above-noted Application. In this letter, the Board has distinguished Phase 1 to deal with the Leave-to-Construct portion of the Application and Phase 2 to deal with the Cost Allocation portion of the Application.

With respect to Phase 2, Entegrus Powerlines Inc. ("EPI") forms part of the E3 Coalition, to which the Board has already granted intervenor status and cost eligibility. While it is anticipated that EPI will continue to be engaged in Phase 2 as part of the E3 Coalition, EPI respectfully requests to also maintain individual intervenor status in Phase 2 of the Application.
