Dear Ms. Walli,

**Re: Notice of New Cost Allocation Issue
Application by Hydro One for Transmission Asset in Essex County EB-2013-0421
Intervenor Request**

Dear Ms. Walli,

The Electricity Distributors Association applies for intervenor status in this proceeding.

On January 30, 2015, the Board published the Notice of New Cost Allocation and Procedural Order No.3 which directs a phase 2 for the proceeding. With respect to phase 2 of the proceeding,

The EDA is seeking to intervene in this proceeding due to the precedent that may be set with respect to the cost allocation of transmission connection costs between transmission system users and local distributors and the cost allocation between local distributors both directly connected and embedded.

For the purposes of EDA intervenor status for phase 2, please forward all correspondence to:
