Dear Mr. Myers:

**Re: Windlectric Inc.
Application for Leave to Construct Transmission Facilities
Board File Number EB-2014-0300**

Both the Association to Protect Amherst Island and Ontario Energy Board (OEB) staff (interrogatory # 2) have noted that the System Impact Assessment report (SIA) prepared by the Independent Electricity System Operator and the Customer Impact Assessment (CIA) report prepared by Hydro One Networks Inc. are dated in 2012. In addition, the OEB notes that the description of the proposed Windlectric project in the SIA and CIA reports is not identical to the description of the project in the application before the OEB.

The OEB therefore requests that Windlectric provide either updated SIA and CIA reports or letters from the Independent Electricity System Operator and Hydro One Networks Inc. confirming that SIA and CIA reports remain accurate despite the time that has elapsed since they were prepared and despite the change to the project description.

Yours truly,
