Dear Ms. Walli

**RE: Natural Gas Conservation Potential Study EB-2015-0117 Consultation Process**

Building Owners and Managers Association of Greater Toronto Area (BOMA Toronto) is a not for profit industry association established in 1917. BOMA Toronto represents over 80% of all commercial and industrial real estate companies in the GTA and beyond, and our members include all leading building owners, property and facility managers, developers, corporate facility managers, leasing professionals, and a variety of companies that provide products or services to the commercial real estate industry. Over the years, BOMA Toronto has been active in protecting and advancing the interests of its members on such important policy issues as energy pricing and supply, property taxes, labour requirements, building materials and equipment regulations. More recently it has been actively engaged in regulatory proceedings at the Ontario Energy Board.

BOMA Toronto is pleased to nominate Marion Fraser as its nominee to for the DSM Technical Working Group. Marion's long career in DSM for gas and electric utilities and he experience in the commercial sector make her an ideal candidate. She possesses the required experience and expertise in the following areas: conservation potential studies, natural gas energy efficiency technologies, evaluation of DSM technologies and programs, and market research.

- Ontario Hydro: Managed market research and market planning functions including potential studies for all sectors as well as managing commercial sector DSM programs.
- Enbridge Gas Distribution: Director, Marketing overseeing market research, planning, program development and implementation for all sectors.

- Union Gas: As a consultant led the development of the first DSM Plan including market potential, measure analysis, screening and evaluation that received Ontario Energy Board approval.
- Fraser & Company: Participated in a wide variety of projects related to the technical, economic and market assessment of technologies; assisted Canada Green Building Council in research with respect to schools, government administration buildings and the commercial sector for its development of analytical tools for existing buildings; and research projects related to specific technologies.

She can be reached at 416 941-9729 or marion.fraser@rogers.com. Her full CV is attached.

If you have any questions, please feel free to contact me. Thank you.

Sincerely,

Bala Gnanam  
Director, Sustainability Building Technologies
