Dear Mr. Creery,

**Re: Applications for the Acquisition of Woodstock  
Hydro Services Inc. by Hydro One Inc.  
OEB File Number EB-2014-0213**

Hydro One Inc. and Woodstock Hydro Services Inc. (Woodstock) filed applications with the Ontario Energy Board (OEB) on July 9, 2014 relating to the acquisition of Woodstock.

As part of the applications filed, Woodstock requested approval to extend the rate rider for the recovery of incremental capital to be in effect until the effective date of the next cost of service application, in 2020. This rate rider is related to the capital contribution with respect to the Commerce Way TS and currently has a sunset date of April 30, 2015.

The OEB has determined that Woodstock may continue to apply the rate rider for recovery of incremental capital costs until its rates are rebased in 2020, (or such other date as approved by the OEB) and to true-up the balance at the time of rebasing.

Yours truly,
