

**UNDERTAKING J8.14**

**Undertaking**

To provide a list of studies and reports done by external consultants during the test period that were not filed with the Application.

**Response**

There are no studies or reports relating to the Application that were completed by external consultants during the test period that have not been filed with the Board.

The work undertaken by the external consultants during the test period to date has consisted of assisting with the preparation of updates to OPG's payment amounts application to the OEB, assisting with the drafting of interrogatory questions to intervenor and Board Staff experts, assisting with the preparation of responses to interrogatories and hearing preparation.

As OPG is planning on filing another application in the first quarter of 2009 for the 2010-2011 rate period, there will likely be consultant studies and reports prepared later in 2008 in relation to that application.
