Reference I.D EB-2015-0176

There are several people from this group requesting an oral hearing for application EB-2015-0176 from Hydro One Networks. This is a request representing the group as a whole and as individuals. This needs to be addressed now, customers of Hydro One cannot afford playing catch up by working to pay the previous bill, to receive another bill equally high or higher with no acknowledgement of errors on the part of Hydro One. They seem totally oblivious or in denial to the plight of their customers, refuse to look into individual cases and the stress is overwhelming. Threats and application of disconnection while huddling in one room with temperature at 15 degrees, eat or heat.

The 170,000 Hydro One customers affected by this application need to be represented and have their concerns about this application expressed. These customers need to be heard and to ask questions face to face at an oral hearing.

I respectfully ask that you reject Hydro One's request for a written hearing on this application. At this point, we are hearing of too many heading towards bankruptcy and living in conditions they are not

accustomed to in a province of Canada.

Sincerely,
Nancy Moisan,
