Dear Ms. Walli

Re: EB-2014-0213 - Hydro One/Woodstock MAADs Application

We are counsel to Woodstock Hydro and the City of Woodstock ("Woodstock") in the above noted matter.

We have had an opportunity to review Hydro One's correspondence delivered to the Board on May 22, 2015. Woodstock supports the submissions advanced by Hydro One therein.

Woodstock council approved the Share Purchase Agreement with Hydro One over 1 year ago, May 21, 2014, and thereafter filed the MAAD Application with the Board on July 9, 2014.

Woodstock underscores the concern expressed by Hydro One that SEC's latest requests do nothing more than threaten to introduce further delay into what has already been a protracted regulatory review process. In these circumstances further delay in the continuation and conclusion of this process is neither fair nor an appropriate outcome for the Applicants, their employees and their customers since utility integration and the associated operational efficiency gains and the distribution rate freeze and rate reduction cannot be implemented until the hearing is concluded and the Board renders its Decision.

Woodstock respectfully submits that SEC's requests be denied in order for the oral hearing to recommence and be completed this week as scheduled without further delay.

Yours very truly,
Borden Ladner Gervais LLP
