## LETTER OF COMMENT

### Comments:

Hydro Ottawa has applied for an increase in distribution charges totalling nearly 24 per cent for residential customers over five years, starting in 2016. This rate increase is totally unreasonable given the expected increase in wages over the same period of approx. 12%. This is predatory pricing given the monopoly situation enjoyed by Hydro Ottawa. Hydro Ottawa is not acting in the best interests of its customers. If their costs have increased then they should reduce their expenses to match - just like the real world with competitive pricing.
