LETTER OF COMMENT

Comments:

To whom it may concern,

I am deeply troubled by Hydro Ottawa's proposed steep increase in our hydro costs. Simply put, they are asking too much of us. Many are struggling with the cost of housing, food, childcare, job security and health issues. There is a palpable level of stress with the high tech. job insecurity, recent instability in the Public Service and escalating housing costs. While everyone else is tightening their budgets and making cost saving measures and pay raise freezes, there has been no publicly mentioned concessions from Ottawa Hydro. Before asking for more of my household budget, I would like to see proof, real evidence that Ottawa Hydro has done the same. Keep in mind, many of us have been lucky to see 1.5% pay raises, although I know a few people who haven't received an increase in over 3 years.

It is only fair to increase our energy, the fuel we need to survive and have no choice, no alternative to use, be kept in line with our pay rate increases. It is unfair to force us to go along with this plan. Find your money within your company, like we have had to find within our households.

Thank-you,
Ms. B. Campbell
