Toronto, ON M4P 1E4

**RE : OEB File Number EB-2015-0004, Hydro Ottawa Limited - Application for 2016-2020
Distribution Rates (the "Application"), Request for Intervenor Status**

Ms. Walli,

By way of this letter, Quebecor Media Inc. (Quebecor Media), on behalf of its wholly-owned affiliate Videotron G.P. (Videotron), seeks intervenor status in respect of the above-referenced proceeding to address Hydro Ottawa's request, in the Application, for an increase in its wireline pole attachment rate.

Videotron provides a variety of communications services (including telephony, Internet and television distribution services) by means of wireline transmission facilities in several parts of the Province of Ontario, most notably in the Eastern Ontario. To do so, Videotron requires the ability to attach its transmission facilities to the support structures (i.e. poles) of Hydro Ottawa, amongst others.

As such, Videotron is required to pay the wireline pole attachment rate approved by the Board. Videotron has therefore an interest in this aspect of the Application and Quebecor Media accordingly seeks intervenor status to participate in the proceeding with respect to the Board's determination of the wireline pole attachment rate.

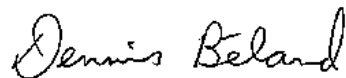

Quebecor Media intends to participate in any procedures that the Board may order, to the extent these procedures relate to the wireline pole attachment rate.

We would also ask that any further correspondence with respect to this matter be sent to:

Yanick Boily
Director, Regulatory Affairs, Telecommunications
Quebecor Media Inc.
