Dear Mr. Myers:

**Re: Windlectric Inc. (Windlectric)  
Application for Leave to Construct Transmission Facilities  
OEB File No. EB-2014-0300**

On June 2, 2015, the Association to Protect Amherst Island (APAI) filed a letter in which it submitted that Windlectric's filing to the Ontario energy Board (OEB) dated May 29, 2015 did not take into account recent modifications to the Amherst Island Wind Energy Project generation facility. In particular, APAI submitted that the modifications to the generation facility could not have been taken into account in the updated IESO SIA Addendum Report and letter of May 12, 2015 or in Hydro One Networks Inc.'s letter of May 29, 2015 to Windlectric with respect to the CIA Report, all of which were filed by Windlectric on May 29, 2015. Windlectric did not disagree with this.

The OEB therefore requests that Windlectric provide either updated SIA and CIA reports that address its most current project proposal, or letters from the Independent Electricity System Operator and Hydro One Networks Inc. confirming that the SIA and CIA reports remain accurate despite the changes to the project proposal since their last review of the project.

The OEB will not render its decision on Windlectric's application until this documentation has been received.

Yours truly,

*Original Signed By*

Kirsten Walli  
Board Secretary
