Dear Mr. Wachsmuth:

**Re: Sarnia Expansion Project
Board File No. EB-2014-0333**

The Ontario Energy Board (OEB) is in receipt of your letter dated June 2, 2015 where you informed the OEB of two routing changes for the Sarnia Expansion Project.

You have indicated that the first routing change which consists of moving the pipeline that crosses Highway 40 approximately 77 meters north from the crossing showing in the evidence was necessitated by a request from the Ministry of Transportation of Ontario. The second change arose as a result of a consultation with the St. Clair Township where it was determined that a diagonal directional drilling crossing of the intersection of the Ladysmith Line and the Rokeby Line was the preferred method.

You indicated that for both of these changes, new permanent and temporary land rights were required and agreements with affected land owners were signed.

Pursuant to condition of approval 1.4 of the Board's Decision and Order in the EB-2014-0333 proceeding, the OEB hereby approves the two proposed routing changes on the basis that there are no land owner issues, and that the new location is in proximity to the original study area.

Yours truly,
